Since 1984, the LTB400 Aviation Software GmbH offers a maintenance management system for medium-sized aerospace repair companies (MRO) and CAMO. With more than 120 customers in 19 countries, we are one of the market leaders.

To strengthen our team, we are looking for a

Software Developer (m/f/d)

Responsibilities:

- Technical support of our customers
- Conception and development of new software modules
- Implementation of data migrations

Required Skills and Experience:

- A completed vocational training in the field of IT or comparable knowledge
- Experience in the field of software development, as well as good knowledge for operating systems and common standard software
- Several years of experience in the programming languages C#, C++, service-oriented topologies, multi-layered applications and SQL databases
- Very good German and English skills

What we offer:

- A varied and international area of responsibility
- A high degree of independence
- A motivated and team-oriented work environment
- Short communication paths

We look forward to receiving your complete application documents, stating the earliest possible starting date and your salary expectations for the attention of Mr. Christian Brunnbauer. Ideally, you should send your application by e-mail to career@ltb400.com.
