

We are LTB400, a specialized IT system for the management, planning, and documentation of aircraft maintenance.

Our goal is to make processes in aviation technology digital, secure, and efficient.

We operate and develop our own enterprise resource planning and maintenance management system internally and are looking for reinforcement in the IT area.

To strengthen our team, we are looking for a

Software Developer (m/f/d)

Responsibilities:

- ✦ Further development and maintenance of our aviation maintenance system (C#, SQL, GitLab)
- ✦ Support for the integration of new modules and functions

Required Skills and Experience:

- ✦ Experience in software development (e.g., C#, .NET, SQL)
- ✦ Analytical thinking and interest in aviation or maintenance systems
- ✦ Ability to work in a team and willingness to learn new technologies
- ✦ Committed and motivated career changers are also welcome
- ✦ Very good German and English skills

What we offer:

- ✦ Exciting projects in the field of aviation IT
- ✦ Flexible working hours and a modern working environment.
- ✦ Long-term prospects in a growing company
- ✦ Collaboration in a dedicated team
- ✦ After a successful probationary period, there is the option of working in a hybrid model

We look forward to receiving your complete application documents, stating the earliest possible starting date and your salary expectations for the attention of Mr. Christian Brunnbauer. Ideally, you should send your application by e-mail to kevin.werbelow@ltb400.com.
